In this way the river cuts off from Shoreham Town the shingle beach south of the Adur, known as Shoreham Beach. This shingle beach is within the Urban District of Shoreham-by-Sea.

The town possesses a public recreation area, Buckingham Park, comprising 38 acres. It is situate at the foot of the Downs north of the town, and is used as a public park and pleasure ground, available for general sports and recreation purposes.

The work of rodent destruction is carried out in accordance with the procedure recommended by the Ministry of Agriculture and Fisheries, and a part-time Rodent Operator is engaged on this work in suitable instances. An estimated number of 2,112 rats have been destroyed during these operations which have included thorough treatment of the Council's refuse tip. Rat treatment No. 2 of the Council's sewers was carried out early in the year resulting in the destruction of approximately 58 rats, followed by a maintenance treatment in October at which no prebait takes were recorded. A free service is given to occupiers of private dwelling-houses.
